

**Introducing Health on Campus:  
Convenient School-Based  
Virtual Healthcare**

**Comanche County Medical Center's Health on Campus Program** offers a streamlined solution for parents seeking healthcare for their sick children without leaving school. With the assistance of school staff, connecting to a CCMC provider through **virtual conferencing is fast, easy, and convenient.**

### How it Works

- 1. Parental Consent:** Obtain permission for your child to be virtually evaluated by a CCMC provider.
- 2. Virtual Conference:** The school nurse connects your child with a CCMC provider.
- 3. Assessment:** Thorough evaluation conducted with the support of the school nurse.
- 4. Follow-up Care:** Instructions and prescriptions sent to your preferred pharmacy, with delivery options available.
- 5. Record Keeping:** Visit records stored for future reference, with copies sent to your primary care physician.

### Benefits

- **Saves time for parents and students**
- **Reduces spread of contagious illnesses**
- **Minimizes lost school days**
- **Enables continuity for parents with other commitments**

### Illnesses Treated

- 1. Sore throats**
- 2. Allergic rhinitis**
- 3. Asthma flare-ups**
- 4. Pink eye**
- 5. Skin rashes**
- 6. Influenza**
- 7. Impetigo**
- 8. Sinus infections**
- 9. Lice**
- 10. Upper respiratory infections**
- 11. Ear infections**

### Insurance Covered
